

Required Assignment 3.2: AI Implementation Roadmap

[Start Assignment](#)

Due Apr 29 by 11:59pm Points 25 Submitting a file upload Attempts 0 Allowed Attempts 1 Available after Apr 22 at 12am

Learning Outcomes Addressed

- Develop a roadmap for implementing AI in your organisation/division/functional area.
- Describe the concept of augmented intelligence, explaining how AI can aid humans in better decision-making.

Assignment Instructions

As a leader and manager with a foundational understanding of various machine learning algorithms, your task is to contextualise this knowledge by identifying potential applications within your organisation. This will enable your organisation to advance its AI maturity systematically and fully leverage artificial intelligence in key managerial functions.

Stages and Activities:

- **Awareness Stage:**
 - **Education and Training:** Outline training programs and educational resources needed.
 - **Industry Research:** Describe research initiatives and how they will inform AI implementation.
 - **Stakeholder Engagement:** Detail how you will engage with stakeholders to gather insights and support.
 - **Risk Assessment:** Identify potential risks and mitigation strategies.
- **Active Stage:**
 - **Pilot Projects:** Explain how you will initiate and evaluate pilot projects.
 - **Resource Allocation:** Specify the resources needed and how they will be allocated.
 - **Data Preparation:** Describe data collection and preparation processes.
 - **Technology Evaluation:** Detail the criteria for evaluating AI technologies.
 - **Performance Metrics:** Define metrics to measure the success of AI initiatives.
- **Operational Stage:**
 - **Infrastructure Development:** Outline the development of necessary infrastructure.
 - **Process Integration:** Describe how AI will be integrated into existing processes.
 - **Skill Development:** Specify training and skill development initiatives.
 - **Governance and Compliance:** Outline governance policies and compliance measures.
 - **Scaling Up:** Detail the plan for scaling AI initiatives across the organisation.
- **Transformational Stage:**
 - **Strategic Alignment:** Explain how AI initiatives will align with organisational strategy.
 - **Cultural Shift:** Describe how you will foster a culture that embraces AI.
 - **Ecosystem Engagement:** Detail engagement with external partners and stakeholders.
 - **Continuous Improvement:** Outline processes for ongoing evaluation and improvement.
 - **Innovation Pipeline:** Describe how you will develop and maintain an innovation pipeline.

To complete this assignment:

1. **Select Two Managerial Functions:** Identify and describe two managerial functions relevant to your organisation that could benefit from AI implementation.
2. **Develop an AI Maturity Model:** For each selected managerial function, create an AI Maturity Model that outlines the progression through the following stages:
 - **Awareness Stage**
 - **Active Stage**
 - **Operational Stage**
 - **Transformational Stage**
 - **Detail Activities and Steps:** For each stage, list the activities and outline the specific steps required to achieve the activities for the selected managerial functions.

Submission instructions

- You can upload a Word document with your response once you have finished.
- After you complete your assignment, select the **Start Assignment** button at the top of this page.
- Upload the file containing your responses.
- Select the **Submit Assignment** button to submit your responses.

Suggested time: 120 minutes

Required Assignment 3.2: AI implementation Roadmap

Criteria	Ratings			Pts
Clarity and Organisation	5 pts Exceeds expectations Model is exceptionally clear and well-organised with detailed, logical progression through each stage.	3 pts Meets expectations Model is clear and organised, but may lack some details or logical flow in parts.	1 pts Below expectations Model is unclear or poorly organised with significant gaps in details.	5 pts
Completeness	5 pts Exceeds expectations All stages and activities are thoroughly covered with comprehensive steps for each activity.	3 pts Meets expectations Most stages and activities are covered, but some steps or details may be missing.	1 pts Below expectations Several stages or activities are incomplete or missing significant details.	5 pts
Practical Application	5 pts Exceeds expectations Provides innovative and highly practical applications of AI, demonstrating a deep understanding of managerial functions.	3 pts Meets expectations Provides innovative and highly practical applications of AI, demonstrating deep understanding of the managerial functions.	1 pts Below expectations Applications are impractical or show a limited understanding of the managerial functions.	5 pts
Action Plan	5 pts Exceeds expectations Detailed and actionable plan with clear timelines, resource allocation, and stakeholder involvement.	3 pts Meets expectations Plan is actionable with basic details on timelines, resources, and stakeholders.	1 pts Below expectations Plan lacks detail or feasibility, with insufficient information on timelines, resources, and stakeholders.	5 pts
Risk Management	5 pts Exceeds expectations Comprehensive risk assessment with well-defined mitigation strategies.	3 pts Meets expectations Risk assessment is present with some mitigation strategies outlined.	1 pts Below expectations Risk assessment is incomplete or lacks adequate mitigation strategies.	5 pts
Total Points: 25
