

Required Assignment 6.2: Leveraging Generative AI in Marketing or Entertainment

Start Assignment

Due Wednesday by 11:59pm Points 20 Submitting a file upload Attempts 0 Allowed Attempts 1 Available after May 13 at 12am

Learning Outcomes Addressed

- Develop a comprehensive understanding of business models and strategies for monetising generative AI

Assignment Instruction:

Select either the marketing or entertainment industry to explore the impact of Generative AI. Conduct research, interviews, and analysis to understand its real-world applications and future potential in your chosen sector.

Part 1: Industry Analysis

Marketing Industry

1. **Selection of Focus:** Pick one area in marketing where GenAI has an impact (e.g., ad copy generation, social media, etc.).
2. **Research:** Look for 1-2 examples of Indian companies leveraging GenAI.
 - **Examples of Indian Companies:**
 - WATConsult: Utilises AI for personalised marketing campaigns and customer engagement.
 - Mad Street Den: Uses AI to drive consumer insights and personalise shopping experiences.
3. **Report:** Write a report summarising the research. The report should cover:
 - An overview of the marketing industry and its current challenges in India.
 - Specific applications of GenAI within marketing.
 - Benefits and potential drawbacks of using GenAI in marketing.
 - Future trends and potential developments.

Entertainment Industry

1. **Selection of Focus:** Select a specific area within entertainment where GenAI is making a significant impact. Examples include content creation, music composition, game development, etc.
2. **Research:** Conduct thorough research on how GenAI is used in India's entertainment industry. Identify key companies and case studies.
 - **Examples of Indian Companies:**
 - T-Series: Uses AI for music composition and analysing audience preferences.
 - Red Chillies VFX: Incorporates AI in visual effects and film production.

3. **Report:** Write a report summarising the research. The report should cover:
- An overview of the entertainment industry and its current challenges in India.
 - Specific applications of GenAI within entertainment.
 - Benefits and potential drawbacks of using GenAI in entertainment.
 - Future trends and potential developments.

Part 2: Professional Interviews

1. **Interview Preparation:** Prepare a set of questions to ask professionals in the chosen industry about the use of GenAI. Questions should cover topics such as implementation challenges, ethical considerations and the impact on their work.
2. **Interview:** Conduct at least one interview with a professional working in the selected industry. If direct interviews are not possible, you can use online resources, articles or case studies as substitutes.
3. **GenAI Role-Play:** Using a Generative AI tool (e.g., ChatGPT), create detailed prompts to simulate interviews with professionals from various roles within the industry. Examples:
 - **Marketing Prompt:** "As a digital marketing strategist at WATConsult, how do you leverage Generative AI to create personalised marketing campaigns? Describe a specific campaign and its outcomes."
 - **Entertainment Prompt:** "As a music producer at T-Series, explain how Generative AI has assisted in composing new music tracks. Provide an example of a track created with AI and discuss its reception."
4. **Comparison:** Compare the responses from the real professional interview(s) with those generated by the GenAI. Analyse the differences and similarities in insights.

Refer to the [interview guide](#)  for more detailed guidance on conducting interviews and using GenAI for role-playing.

Part 3: Comprehensive Report

Combine the findings from the industry analysis, professional interviews, and GenAI role-play into a comprehensive report and include:

- An introduction to the selected industry and its significance.
- A detailed analysis of GenAI applications in the industry.
- Insights from the professional interviews.
- Insights from the GenAI role-play.
- A comparison and analysis of real vs. GenAI-generated responses.
- Conclusions and future outlook.

Required Assignment 6.2: Leveraging Generative AI in Marketing or Entertainment

Criteria	Ratings			Pts
Research Depth	5 pts Exceeds expectations Comprehensive and well-documented research covering all relevant aspects of the selected industry. In-depth understanding of GenAI applications, challenges and trends.	3 pts Meets expectations Sufficient research covering the key aspects of the selected industry, but lacking depth in some areas. Adequate understanding of GenAI applications.	1 pts Partially meets expectations Limited or superficial research. Some areas of the selected industry are under-researched. Little understanding of GenAI applications or trends.	5 pts
Interview Quality	4 pts Exceeds expectations Insightful, well-thought-out questions that yield relevant and valuable insights from professionals. Clear understanding of industry context and AI challenges.	3 pts Meets expectations Relevant questions that provide useful but not highly insightful answers. Demonstrates a basic understanding of the industry and AI, with room for depth.	1 pts Partially meets expectations Poor or irrelevant questions leading to limited or unclear insights. Weak understanding of the industry and the role of AI in professional contexts.	4 pts
GenAI Interaction	4 pts Exceeds expectations Creative and highly effective use of GenAI tools, with carefully crafted prompts generating detailed and contextually appropriate professional responses.	3 pts Meets expectations Adequate use of GenAI tools, but lacking creativity or depth. Responses are useful but not deeply relevant or fully reflective of professional insights.	1 pts Partially meets expectations Basic or ineffective use of GenAI tools. Prompts are vague, producing irrelevant or shallow responses with limited relevance to the professional context.	4 pts
Analysis and Comparison	4 pts Exceeds expectations Thoughtful and critical analysis of the differences and similarities between real and GenAI-generated responses, identifying clear patterns and deeper insights.	3 pts Meets expectations Some comparison between real and GenAI responses, but the analysis lacks depth or critical insight. Key differences or similarities are mentioned but not explored.	1 pts Partially meets expectations Little to no analysis of real vs GenAI responses. Minimal or surface-level comparison without meaningful patterns or critical assessment of differences.	4 pts
Report Quality	3 pts Exceeds expectations Clear, well-organised and comprehensive report with a logical flow. Effectively synthesises research, interview and GenAI findings, leading to strong conclusions.	2 pts Meets expectations Clear and organised report but with some areas lacking in-depth synthesis or connections. Mostly complete but missing some key insights or clarity in parts.	0 pts Does not meet expectations Poorly structured or unclear report. Lacks comprehensiveness, with weak synthesis of research and interview findings. Conclusions are incomplete or unclear.	3 pts
